

UTC Project Information									
Project Title	Older Drivers and Transportation Network Companies: Investigating Opportunities for Increased Safety and Improved Mobility								
University	TTI								
Principal Investigator	Melissa Tooley								
PI Contact Information	M-tooley@tti.tamu.edu , 979-845-8545								
Funding Source(s) and Amounts Provided (by each agency or organization)	Safe-D (Federal): \$ 130,000 Match (Non-Federal): \$								
Total Project Cost	\$ 130,000								
Agency ID or Contract Number	Grant No: 69A3551747115 Project: 02-016								
Start and End Dates	09/01/2017, 08/31/2018								
Brief Description of Research Project	For older populations, TNCs have the potential to provide enhanced mobility for a range of transportation needs, including healthcare appointments, necessary errands, and social opportunities. As it is well-documented that older drivers have a higher potential for crashes, there are significant potential safety benefits. This project will assess the potential of TNCs to enhance safety by decreasing the number of older drivers on the roadways while increasing their mobility options.								
Describe Implementation of Research Outcomes (or why not implemented) Place Any Photos Here	<table border="1"> <tr><td>UTC Project Information Sheet</td></tr> <tr><td>Quarterly Reports</td></tr> <tr><td>6-month Surveys</td></tr> <tr><td>Draft education module and webinar content submitted to Safe-D for review</td></tr> <tr><td>Draft T2 materials (articles for publication, training/guidebooks) submitted to Safe-D for review</td></tr> <tr><td>Final education module and webinar content</td></tr> <tr><td>T2 materials (articles for publication, training/guidebooks)</td></tr> <tr><td>Final Project Report (D)</td></tr> </table>	UTC Project Information Sheet	Quarterly Reports	6-month Surveys	Draft education module and webinar content submitted to Safe-D for review	Draft T2 materials (articles for publication, training/guidebooks) submitted to Safe-D for review	Final education module and webinar content	T2 materials (articles for publication, training/guidebooks)	Final Project Report (D)
UTC Project Information Sheet									
Quarterly Reports									
6-month Surveys									
Draft education module and webinar content submitted to Safe-D for review									
Draft T2 materials (articles for publication, training/guidebooks) submitted to Safe-D for review									
Final education module and webinar content									
T2 materials (articles for publication, training/guidebooks)									
Final Project Report (D)									
Impacts/Benefits of Implementation (actual, not anticipated)	The implementation of the results of the project is expected to increase safety by facilitating older drivers' alternatives to driving themselves.
